TRADE CENTERS. With remarkable, not to say amusing regularity, the San Francisco press puts an old-time and thread-bare complaint against

the interior through its paces. Last year it was the Bulletin that bitterly complained because commercial laws are not set aside and the usages of trade reversed to preven Stockton, Marysville and Los Angeles from selling at rates level with those of the San Francisco merchant and thus secure to San Francisco a monopoly of her interior trade. Nothing more preposterous was ever lacy of the claim was laid bare by the RECORD-UNION, and such testimony in favor of the interior was the Bulletin's complaint deemed, that it was published and circulated by valley merchants as an advertisearticle embodying interviews with San Francisco manufacturers and dealers in San Francisco, in which the old complaint the complaint is that Sacramento, Marysville, Stockton and Los Angeles and San have insisted upon uniformity of charges withstanding that the cities of the interior that they shall be handicapped by a discriminating charge." One merchant, in the interviews referred to, suggests that it is to the interest of the trans portation companies to ship raw materials and manufactured goods to San Francisco at such rates that freight back to interior points can be secured. Without doubting the personal honesty of the merchant, one widely known, we do not hesitate to say that his proposition is suggestive of dishonsty. It simply means that natural interior trade centers shall be ignored, and their competitive relations denied : first, that the obbers at a single point may command all the trade; and second, that the carrier may speculate upon the driven necessity of the consumer. THE GREELY SURVIVORS AND CANNI BALISM.

With a circumstantiality of detail that nforces a hearing on the part of the pub ic, it is related that the survivors of the Greely Arctic expedition were guilty o annibalism. It is said that one of the sur ivors in his delirium exclaimed piteously against being shot and eaten as one of his comrades had been. That in the graves of the dead only clean-picked bones were found. That one skeleton was found with a rib shattered by a rifle ball and with fragments of lead on the bone. But on the ther hand Commander Schley denies the whole story, pronounces it a sailor's yarn and as a cruel lie; declares the bodies of the dead were found intact, and that there was nothing whatever to show that canni palism had been practiced. DOMESTIC NEWS. Mormon Elders Shot by a Mob.

NASHVILLE, August 12th.-The organizaion established by Mormon elders in Louis and Hickman counties, in this State, about three years ago, was broken up on Sunday by the killing of all the elders by a band of masked men. Mr. Depriest, United States mail-carrier between Ivey Mills and Centerville, Hickman county, gives the folowing account of the massacre: Three elders were leading a meeting at Condor's, Cane Creek, Louis county, Sunday morning, when twelve masked men on horseback rode up to the house and ordered a young man named Hudson and young Condor to surrender. They showed fight, and one of the masked men knocked Condor down, breaking his skull. Hudson fired, and one of the masked men fell dead and was found to be Dave Hinson, a citizen of Hickman county. He lived at Brushfork, on Beaver dam. The masked men then hot and killed two of the Mormon elders. The third elder ran toward the woods, from which firing was soon heard. The elder has not been seen since, and it is thought he was also killed. It has since been ascer tained that the masked men, before going to Condor's house, stopped at the house of a man named Garrett, and found one of the Mormon elders there. They left two masked men there in charge of this elder. Shooting was heard there shortly after-ward, and that elder has not been seen since. State Board of Equalization. The State Board of Equalization had under consideration yesterday and the day previous the question of assessment of the property of the Central and Southern Pacific Railroad corporations. In considering the subject E. Black Ryan, as agent of the companies, gave information in answer to interrogations by members of the Board, and also suggested the extensive damages

He asked that, as he was not an orator himself, and could not cope with the attorney who was appearing against the companies, another day be set, when Mr. Haymond might be present and hear Delmas' argument and have an opportunity to reply to it. He said it was well known that Mr. Delmas was inimical to every interest of the railroad companies, and his ex parte argument would not be just. Controller Dunn objected to the insinu

The Chairman of the Board said that a the Board had a very short time to do a great deal of work, they would hear Mr. Delmas, and then Mr. Haymond could appear before the Board on Thursday, if he o desired, and make such argument or re-

Mr. Delmas then made quite a long argument, having Win. J. Davis present to stenographically report it. The speech was a repetition of well-known statements made by this attorney during the late extra seson and in his letter to the State Board of ization one year ago.

Mr. Gildea interrupted during the speech to correct inaccuracies of statement, and exposed the sophistries of the speaker. Mr. Dunn, at the conclusion of Delma remarks, asked several questions of Del mas to elicit replies of further statements contained in the last year's letter of said subject was postponed.

CHANGED EVERY DAY FOR THE MECHANICS' STORE.

ALL THINGS CONSIDERED.

Ever since Henry Ward Beecher wrote an article for the New York LEDGER defending the use of the knife in eating, when more convenient than the fork, etiquette in regard to this particular has been subject to much agitation.

Several writers have sought to give a more practical turn to the discussion, by urging a crusade against the use of battered and worn out cutlery.

And why not? Why should inattention to this detail spoil the relish of so many otherwise well prepared and well served dinners? as one of these social topic writers declares it has.

Certainly it is not the cost. At least we believe quotations like the following bridge no excuses of this

Best Heavy Silver Plate Knives, \$2 25 per set; Forks, \$2 90; Spoons, \$2 70.

Satin Steel Ivory Handled Knives, \$3 per set. Fine Bone Handled Knives, \$1 50 per set.

Politics costly! With Blaine Hats at \$2 50.

Carving Sets, \$1, \$2 50 and \$4.

Some time ago through error we advertised Tortoise Hats at 20 instead of 25 cents.

That mistake immediately jumped up the demand. Now we have 50 dozen more. Still the same price.

COLORED RHADAMES, all pure bright silk, \$1 50.

A WORTH, with all his originality, could hardly find disposition for a greater variety of draping forms than we are now showing in bustles, large and small, long and short, flat and arched; plain, plaited and puffed.

Prices, 50 cents to \$1 75. A new line of Hoop Skirts, with cross wires, at \$1,

WIGS and HALF WIGS to order in any shade or quality. Advantages in price worth looking after.

While Summer lasts we have every facility for the doing of seasonable MILLINERY in the most artistic and least costly manner.

There are many at the age of 30 to 60 who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness.
